Kodak presents a fine camera-projector team

—for no more than you'd expect to pay for a fine camera alone!

Kodak Signet 35 Camera (only $75) and Kodaslide Signet Projector (only $69.50) give you color slides of jewel-clear brilliance

As you well know, you can pay hundreds of dollars for a fine camera alone. But here's a great camera-projector team for only $144.50!

From the first click of the shutter to the final proud showing, this team assures you of *color quality* that is literally unsurpassed. Here's why:

The Signet Camera: It has the incomparable Ektar Lens plus many other precision extras: Smooth ball-bearing focusing. Coupled range-finder-viewfinder. Double-exposure prevention. "Red Dot" setting system makes color slides as easy to take as snapshots.

The Signet Projector: Has a fine optical system and special Lumenized condensers. It shows slides with edge-to-edge and corner-to-corner brilliance and clarity. Automatic changer, impeller-type blower for quiet, thorough cooling.

Ask your dealer to demonstrate the performance of this fine color-slide team. He will arrange a small down payment and easy terms for you, if you like.

Prices include Federal Tax, and are subject to change without notice

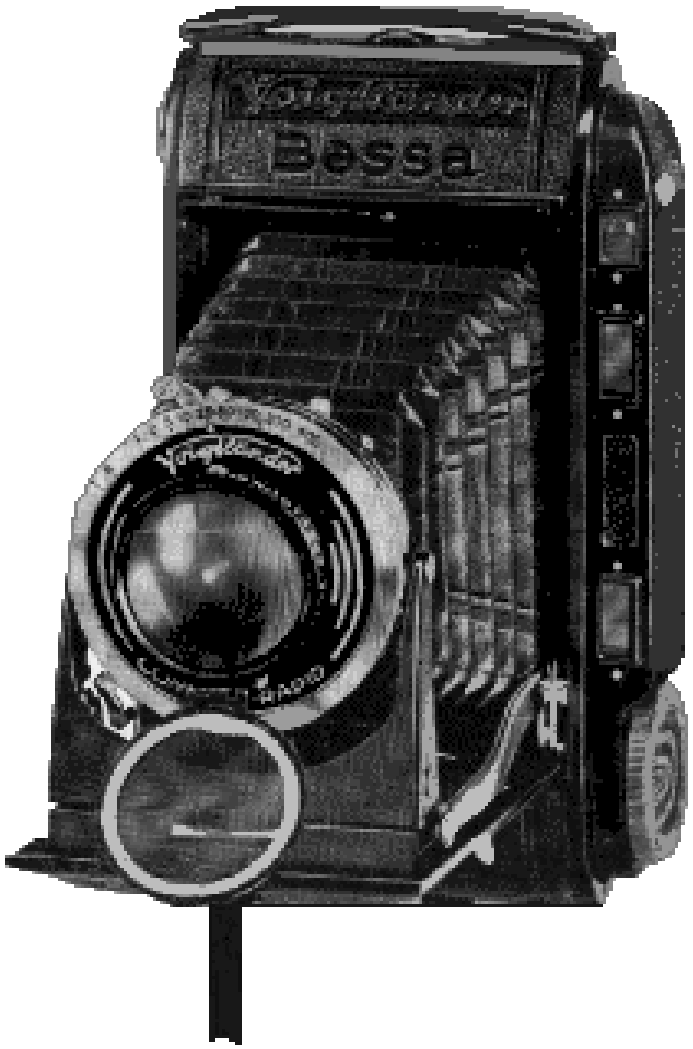
RANGEFINDER
CHROME
BESSA

[DISCONTINUED]

With Hinged Yellow Filter
Attached to Lens Mount

Voigtlander *f*3.5 Heloma
Anastigmat Lens
in Compur
Rapid Delayed-Action
Shutter with speeds up to
1/400th part of second



THE Rangefinder Bessa combines all the best features of the regular Bessa with the addition of the extremely valuable automatic built-in coupled rangefinder by means of which the fast Voigtlander lenses are focused to maximum sharpness even when the camera is closed. Convenient trigger release which disappears when camera is closed. Hinged yellow filter in interchangeable mount directly in front of the lens is part of the standard equipment. Streamline shape. Two size optical finder. Depth of focus chart indicating the range of sharpness for every aperture. Half size mask for pictures 1⅝x2¼ as well as 2¼x3¼.

$98.50

With Case

Here is the most sturdily built of all compact Reflexes. It is very simple to operate and has an ideal prism reflecting, shutter setting indicator—the shutter speed and diaphragm opening being visible from above and changeable without tilting camera. Special lever device changes film easily without winding.

Pictures that tell a story ' ' '

WHETHER your subject is preparing to "tee off" for first drive of the day—or is comfortably relaxed in the locker room after the match is played—the B & L Tessar gets the picture record of daily events as you want it.

Whatever you can do with an ordinary lens, you can do better with a B & L Tessar—a lens for more interesting pictures.

It cuts sharper—providing a depth of focus which lends character to your subject. In addition, lighting which is inadequate for most lenses, is ample for securing vivid pictures with this new *f*.3.5 B & L Tessar lens.

Only the best of everything, as determined with strict competitive tests, is used in producing the new *National* GRAFLEX camera illustrated above. Because of proven superior performance, the *National* GRAFLEX emerged from the testing rooms fitted with a B & L Tessar *f*.3.5 lens.

You too will want a Tessar-equipped GRAFLEX. See your dealer today—and write us for further information regarding the B & L Tessar or other quality photographic lenses.

平可通の素人のまことさしやかな
商品比較批判は、明瞭なる事實
の前數スポーツを不快なる混亂
に陷がしめるものである。

東京
大阪　シユミツト商店

毛皮を着て南洋へ、浴衣のまゝで北極へ行つた男の話を吾人は未だ聞いたことがない

◇ 最近の某雜誌の一記事は吾々に醫學にも價値なる說明を與へてくれた。ハタキタケの菌絲體に勝れたカキを手當に使つたといふ話である。

◇ 南洋へは夏の衣を、北極へは毛皮を携帶すべきである。クリヤ三一の絕緣度は電氣量千二十度である。パーテ少將は書次の兩極行に、カキを携帶もセヌに、ピターは流星雨に、シユミツト博士は恐らく人類の機緣上で經驗した最高の素材使用發明に際らう。されどこの唯一の偏狹なる記錄であつたことを記しておく。

◇ 今年一月から一ヶ月間を以のスキー技術者に事故された百件餘悉皆は、或る共にあつたと云のクリヤか、いかなる技術の熟練の者も、何の特別の保護をも加へずして一度の例外もなく確實に動かしたことを證られて居る。

◇ 各社のスポーツシヤツに吾々が常に勝へ得しものはクリヤだ。其事にもつてきた元祖のクリヤ。これが凄まじく思つてみたことさもない。とアナタ達もその偏狹は笑ふ。

吾人は富豪にして、商品の性能の重要なる比較を大衆になつて研究發表する學者乃至素人をも、不幸にしてみたことがない。素人の商品比較批判は人を盡り自らの名を墮すもの、愼しむべきである。
