December 4, 1914

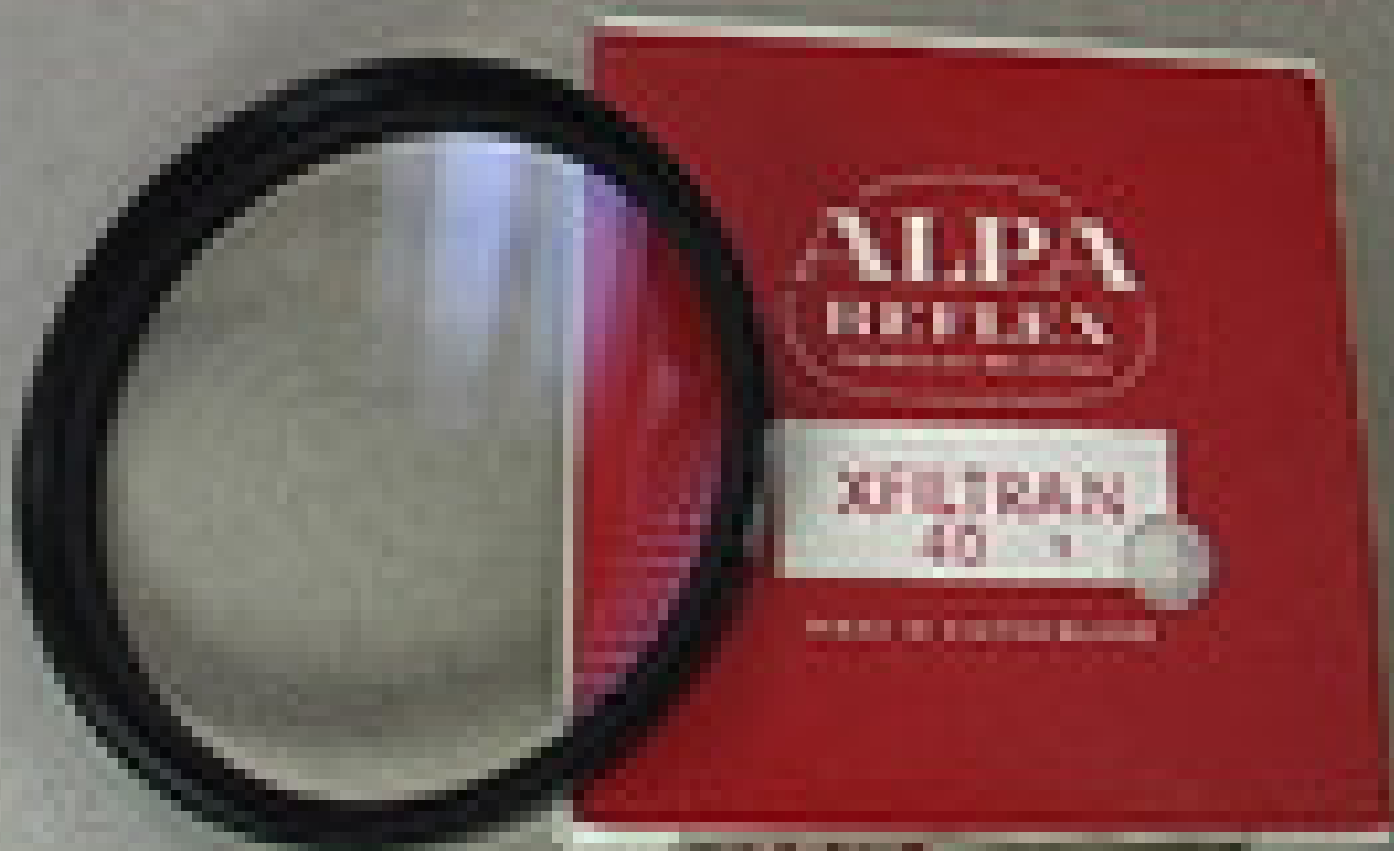

A shield-shaped metal plate, likely made of brass or a similar alloy, is mounted on a dark red, textured background. The plate has a slightly weathered appearance with some discoloration. It is secured by five screws: two at the top corners, one at the bottom center, and two at the bottom corners. The text "SOFTALA No 0" is embossed or stamped in the center of the plate.

**SOFTALA No 0**
