Pressemitteilung

More than ever before.

More technology. More innovation. More new products from the industry leader Carl Zeiss.

GageMax brings lab precision to harsh production-floor environments. Never worry about temperature changes, contaminants, or long transport routes.

VAST Navigator is the 3rd Generation of Zeiss Active Scanning. It achieves measuring speeds, accuracy, and repeatability previously considered impossible.

SPECTRUM means versatility. Select the sensor that will best measure your inspection task. Choose from touch, scanning, or optical technology.

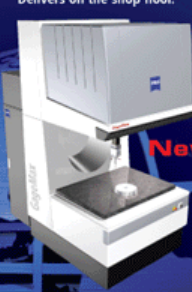

TeleService on-line support saves you time and money. Get immediate solutions to your CMM's hardware and software issues.

PRO uses a unique horizontal-arm mechanical structure and design to give you the best possible combination of accuracy and throughput.

Surfcom 1900DX offers the highest level of measuring speed and the lowest vibration for consistent high magnification measurements.

PRISMO Access is the latest addition to our most successful CMM family. It gives you access to state-of-the-art metrology at the lowest price ever.

GageMax CMM
Delivers on the shop floor.

New

SPECTRUM CMM
Maximum sensor flexibility.

New

Surfcom 1900DX
The latest "Linear Motor" technology for highly accurate measurements.

New

VAST Navigator
3rd Generation of Scanning.

New

PRO CMM
High speed and accuracy... productivity for everyone.

New

TeleService
On-line support for your CMM.

New

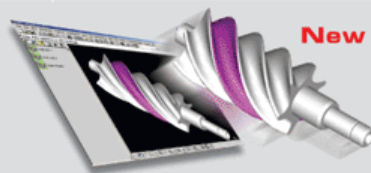

PRISMO Access CMM
Access to better performance and measuring ranges.

New

Carl Zeiss IMT Corporation
6250 Sycamore Lane North
Maple Grove, MN 55369
Phone: (800) 752-6181
e-mail: imt@zeiss.com
